Cancel claims 1-9, 19-26, 35-43, 53-61 and 63 without prejudice in favor of a continuing application, reissue and/or a reexamination application.

✓ ✓
Rewrite claim 10 as follows:

10. (Amended) A method of controlling displayed video and data utilizing a remote control device that interacts with a set-top box to provide enhanced content based upon the identity of the current user of said personal remote control comprising,

recognizing said current user with an interface in said personal remote control unit,

establishing an identification of said current user based upon the recognition data supplied to said remote,

communicating said identification of said current user to said set-top box,

assigning preference and profile data corresponding to said current user to a current user database within said set-top box,

controlling the interactive output of said set-top box by controlling said video content based on said preference and profile data.

Remarks

It is respectfully requested that the Examiner enter this amendment prior to examination. This application originally referenced provisional applications and corresponding non-provisional applications in a manner inconsistent with current USPTO practice. The corrected wording is now consistent with 35 U.S.C. 120 as per MPEP 201.11. No applications have been added or deleted.

Please issue an Updated Filing Receipt that reflects the proper serial numbers for claims of priority. A copy of the original Filing Receipt dated January 9, 2002, is attached hereto as **Exhibit A**. Claims 1-9, 19-26, 35-43, 53-61 and 63 have canceled without prejudice. Claim 10 has been amended.
